

Grant applications

available for 2011

The mission of Huntsville Hospital Community Health Initiative is to provide funding for projects dedicated to improving our community's health through education, prevention and early detection in the areas of:

- Cardiovascular disease
- Cancer
- Mental health
- Substance abuse
- Youth pregnancy

Non-profit organizations with new or innovative programs are encouraged to apply for a grant, especially those which seek to improve access to affordable health care. ***Any request not specifically focused on improving access to health care is reviewed on its own merit for its ability to help improve the health of our community.***

Proposal deadline: March 4, 2011
