

SPEAK OUT!®

A new speech therapy program offered to people with Parkinson's

The Parkinson's Care Clinic is the first provider of SPEAK OUT® in North Alabama. This unique, two-part program typically consists of 12 sessions that guides the patients through speech, voice and cognitive exercises intended to strengthen and improve the muscles used for speaking and swallowing.

SPEAK OUT® graduates will transition to The LOUD Crowd® offered in collaboration with the Huntsville-Madison County Senior Center to continue their vocal training in a supportive group setting.

**Physician referral should be sent to the Parkinson's Care Clinic at Medical Mall; it should read: Speech Therapy Evaluate and Treat & ENT consult.*
