Application for the **Job Shadowing/Observation Program**

Shadowing Paperwork Submission:

Completed Job Shadowing/Observation Program paperwork should be submitted to Corporate University:
Paula Proctor, t: 256-265-8025, email: paula.proctor@hhsys.org

Any paperwork related to a pre-arranged experience with a physician requires additional scheduling with
the Medical Staff Office, and all processing will occur at that location.

Faith Rhoades, t: 256-265-8044, email: faith.rhoades@hhsys.org

Dear Participant,

Thank you for sharing your interest in Huntsville Hospital's Job Shadowing/ Observation Program through Corporate University. The goal of our program is to provide experiential learning opportunities to help you learn about health careers through observation. Although program participants will have the opportunity to see, first hand, the healthcare workplace and the day-to-day work of professionals in the health care field; participants are not permitted to take part in hands-on patient care.

There are a few key facts about the Job Shadowing Program that you need to know:

1. **Eligibility**

Participants must meet the minimum age requirement of 15 years of age, or be at least a High School junior in order to be eligible to participate in the program. Please note, there are areas of the hospital in which the minimum age requirement is higher. Medical professionals are also eligible for the Job Shadowing/ Observation Program with the understanding that the program is an observation only experience and not hands-on delivery of care.

2. **Shadowing Time**

- The Job Shadowing/Observation Program allows a student or medical professional to shadow/observe in a unit or department for a total of up to **12 hours**.
- When shadowing in our facilities, our patients will need to consent to allow the student to enter their patient care area. Due to this requirement, areas with patients that are not alert and able to consent will be off limits for Job Shadowers.
- Students/ professionals who have already identified a non-physician hospital employee willing to host them, may begin once they have submitted: a completed Job Shadowing Application, current TB Skin Test, and picked-up a Shadowing badge at Corporate University. It will be up to them to schedule their Shadowing time with the hospital employee.
- For participants that need assistance in finding an employee match to shadow, this service is limited to the months of **May, June, July, and December**. Shadower placement matching takes **5 working days**, from the time the completed application and TB test are submitted to Corporate University.
- Each Shadowing match between a student and an employee (non-physician medical professional) is based on a careful process. Corporate University will make every attempt to provide an experience in one of the three areas of interest submitted by a student on the application. Availability and schedule limitations within our organization also play into determining placement opportunities.

3. **Pre-requisites for Participation in the Program**

Prior to beginning a Shadowing experience applicants must submit the following completed paperwork:

- A completed **Job Shadowing/Observation Application**. If the student needs to be matched the student needs to be sure to include three areas of career interest and the student's dates/times of availability to shadow. The application form includes several sections that must be complete and signed:
 - A **HIPAA (Health Insurance Portability and Accountability Act) Test**
 - An **Affirmation Statement**
 - A **Dress and Appearance Policy Form**
 - A **Hold Harmless Form**
- A **Current, Negative Tuberculin (TB) skin test** from your doctor or student health center is also required. The test should be **read within a year to be valid**. Please note, the TB Skin test process takes 48 hours between the TB injection and the reading by a physician. Include the certificate of results from your family physician or other primary care provider. For a \$25 fee, the Occupational Health Group is another local resource for TB skin testing (located inside the Medical Mall at Governors Drive).

All paperwork needs to be submitted to the appropriate hospital contact. For non-physician Shadowing/Observation experiences the contact is **Paula Proctor at Corporate University**; for those with a pre-arranged physician shadowing experience see the special processing note below. Once we receive your complete paperwork the participant can obtain a badge from the Corporate University's administrative office, located in the Dowdle Center at 109 Governor's Drive. Your packet can be faxed to (256) 265-9417, dropped off, or mailed to our office address:

Attention: Paula Proctor - c/o Huntsville Hospital's Corporate University, P.O. Box 1167; Huntsville, AL 35807

Fees: Participants will need to be prepared to pay a **\$20.00 cash deposit** to check out their program badge; and once the experience is over the participant returns the badge, when the **\$20.00 deposit will be returned**. Participants will also be expected to pay to park in visitor parking while participating in the Job Shadowing/Observation program. The current **fee to park is \$5.00 per instance**. If you have any questions contact us at (256) 265-8025 or email at Paula.Proctor@hhsys.org. Please note, the Program **does not match students to physicians, physician assistants (PA), or those health care professionals that are not employees of the hospital**.

We look forward to helping you explore your career options in healthcare, and hope your experience will be rewarding.

Regards,

Paula Proctor

Special Processing Instructions for Shadowers with Physicians

If an applicant has made their own arrangements to shadow/observe a physician or physician assistant, the same pre-requisites apply, the processing differs slightly. Applicants will need to submit their **completed Job Shadowing/Observation Application** and **current TB Skin Test** to our Medical Staff Office, and schedule a **one on one orientation** with that office prior to their experience. The contact in Medical Staff is Faith Rhoades. Faith.Rhoades@hhsvs.org.

HIPAA Foundations Training

Introduction

- At Huntsville Hospital, privacy of patient information has always been considered a basic right.
- What can happen when protected health information is inadvertently exposed? Personal harm to individuals, embarrassment, community mistrust, lawsuits, etc...

What is HIPAA

- HIPAA stands for **Health Insurance Portability and Accountability Act**. HIPAA is a relatively new federal law that protects Protected Health Information, or **PHI**.
- The law allows for penalties such as fines and/or prison for people caught violating patient privacy.
- HIPAA Privacy Regulations became **effective in April 2003** and the Security Regulation in April 2006.
- Part of our compliance with the HIPAA law is to provide the required awareness training for employees and workforce members.

Protected Health Information

- Protected Health Information (PHI) is **about patient information – whether it is spoken, written, or on the computer**. It includes health information about our patients. It can be information as simple as their name.
- Certainly we can share PHI when it is part of our job to do so, but beyond that you may have broken the law if you share patient information.

Need to Know

- A good way to determine if you should share patient data is to ask yourself... **“Do I or others need this information to do the job?”** Use this little test before you look at patient information or share it with others.
- Sometimes you may inadvertently hear or see information that you don’t need to know. If so, just keep it to yourself.

Dispose of PHI Properly

- Dispose of PHI ONLY in approved, secure trash or shredding bins. PHI should never be disposed of in trash bins in public areas.
- **If you see PHI in the trash in public areas, notify the supervisor immediately.**
- If you transport PHI, make sure it is secure when not in your sight, such as a locked vehicle.

The Privacy Officer

- **At HH we have a person responsible for insuring that privacy is maintained – The Privacy Officer.** However, no one person can know if we have a possible threat in every area of such a large organization.

- Each of us must do our part to protect patient information. **You should always report possible privacy problems to the manager in your area or to the Privacy Officer.**

Co-Workers, Friends, and Family

Situation: You hear about a friend that has had surgery, so you call a nurse on that floor to find out the details.

- Friends and co-workers deserve the right to privacy just like any other patient. You are not permitted to access or disclose PHI of any friend or family member (including your parents, siblings, spouse, children, etc.) You may only obtain/share information that is necessary to perform a legitimate job function.
- **You may personally ask the individual you know about their condition, and it is their choice what to share with you.**
- You may also ask their permission to share their information with a common friend, but you should never do this without their permission.

“Don’t be Curious”

Situation: You like to look at the patient directory or surgery schedule daily to see if you know anyone.

- This is not within the scope of your job at this hospital.
- You are in violation of HIPAA laws and Huntsville Hospital policies.

Respect the Privacy of Patients

Situation: You are working in an area where caregivers are discussing health information with a patient, a family member, or another caregiver.

- You can ask if you need to leave the area.
- You may quickly finish your task and leave.
- You must keep any health information you overhear to yourself.

Protect information in your Possession

Situation: In the process of doing your job, you use a list that contains patient names and possibly other patient information.

- You should keep the information in your possession at all times.
- You should make sure that it is protected from others who would not need the information.
- You can turn it over so the information can’t be viewed.
- You **should make sure when you are finished with the information that you have disposed of it properly.**
- Your supervisor may give you instructions for disposal of PHI.

HIPAA Fundamentals Test

This completes the fundamental overview of the HIPAA regulations. You now know and are responsible for what is required of you as an employee of Huntsville Hospital.

- HIPAA laws also require that we keep a record to show that you have been trained in patient privacy. You should now take the HIPAA FUNDAMENTALS TEST.

7.) **SEVERE WEATHER** - Tornado in the medical district. Move all patient and visitors from windows and into the hallways

You should know the location of all the following, in the area of work/observation:

- Emergency Exits
- Fire Extinguishers
- Fire alarm pull stations

Shadowing/Observation Program – Affirmation Statement on Security & Privacy of Information

My signature below verifies that I have read and commit to the Huntsville Hospital requirements for confidentiality of protected health information (PHI). Additionally, I am aware of and will follow hospital policies regarding the Privacy and Security of PHI including the use, disclosure, storage and destruction of PHI. I will only access patient information that I need to do my job at the Hospital. I will not access (via I-Care, WellSoft, Mckesson, 1Chart, etcetera) patient information of family members (i.e. children, spouse, etc), co-workers, or other people that is not required to perform my job.

Confidential Information includes PHI as well as information concerning quality assurance functions, contracts, business arrangements, employee information and propriety information relating to the hospital's finances, operations or future plans as described in Administrative Policy "Confidentiality."

As part of the terms and conditions of my employment or association, I hereby agree and accept that I will not, during my employment (or affiliation) or after it ends, access PHI, or disclose confidential information except as required for my job duties and in accordance with all policies and laws governing disclosure or Release of Information.

I agree that user identification codes and passwords will not be shared. Neither will I make an attempt to learn or use another employee's or associate's passwords. I am responsible for the use and protection of my unique computer log-ins (passwords).

If I am an instructor, I understand that I assume responsibility for the actions of the students under my supervision to comply with the Security and Privacy of Information Policy.

If I am a physician, I understand that I assume responsibility for the actions of my employees or office staff to comply with the Security and Privacy of Information Policy.

Training: Members of the hospital workforce receive training on security and privacy during New Employee Orientation and during annual required training. Any updates or changes to policies will be communicated via staff meetings, intranet and/or mandatory requirements tests. Annual Renewal: I acknowledge that I know where to find policies for Privacy, Confidentiality and Compliance.

Corporate Compliance: It is my responsibility to follow policies and regulations as well as State and Federal laws. I understand that I am responsible for knowing the rules and policies that apply to my job. The hospital has a Corporate Compliance program to assist my knowledge of the rules. The hospital also monitors compliance with Federal and State laws and regulations, which includes my use of hospital equipment and information systems. I am not aware of any violations of policies, laws or regulations and agree to report any violations to the Corporate Compliance Officer. Questions about whether actions taken by the hospital are legal should be referred immediately to the appropriate supervisor, or to the Corporate Compliance Officer.

Computer Applications: I further understand that I may be provided access to certain hardware and software applications, some of which may be proprietary to their respective vendors. I agree to keep the hardware and software applications confidential, to not disclose to third parties, and to use such hardware and software applications only for the benefit of Huntsville Hospital.

Exclusion List or Status: I confirm that I have not been excluded by the U.S. Government from participating in any governmental program nor, to the best of my knowledge am I under investigation. I agree to notify the Corporate Compliance Officer immediately upon my receiving written or verbal notification that I am proposed for exclusion from any governmental health program.

I understand that a violation of this affirmation statement could result in disciplinary action up to and including termination of employment/contract/ association/appointment and a report to my professional regulatory body. Additionally, federal law provides for the imposition of fines and imprisonment pursuant to HIPAA violations.
