

OCCUPATIONAL HEALTH SERVICES

Our group of trained staff, certified providers and medical review officers are experienced in meeting the needs of our clients and their employees. Our team will also work with you to schedule physicians, drugs screens and other required pre-hire services your company needs.

Tapping into the HH Health System network affords the benefit of a vast array of resources for testing, treatment and coordination of occupational health needs. Our team will work with you to prevent lost time and foster a healthier workforce.

Occupational Health Services include:

- Prompt treatment of work-related injuries
- Assistance with OSHA mandatory health screenings
- Certified DOT Examiners
- Pre-placement and annual physicals
- Work related testing and evaluations
- Job-site tours
- Easily accessible providers
- Customizable workplace programs

WORK RELATED INJURIES

After a thorough injury examination and medical history review, our providers develop treatment plans that maximize the employee's recovery, while also ensuring the company avoids unnecessary penalties and absenteeism. Our providers are always available to answer questions and help navigate the complex field of Workers' Compensation.

TESTIMONIAL

“The team is head and shoulders above what we’ve experienced at other occupational health facilities. Everyone treats us with professional ability and courtesy. They understand the uniqueness of attending to injured and stressed-out but otherwise healthy individuals and demonstrate a willingness to interact with our employees on their level.”

David Wilkinson

Reed Contracting Services, Inc. & Reed Maintenance Services, Inc., Safety Director
